

WOUND MANAGEMENT PROGRAM

Our Mission is to provide exceptional healthcare by fostering a CULTURE of excellence where every member of the TEAM strives constantly to improve CUSTOMER SERVICE. Our Vision is to be the best LTAC provider in the markets we serve. To be the BEST, we must be the EMPLOYER of choice and the PROVIDER of choice.

EVERY LIFE  
*improved.*

## Health. Hope. Progress.

Triumph HealthCare is one of the largest and leading providers of long-term acute care in the nation. For long-term, intensive care beyond the scope of a traditional hospital, trust Triumph's experienced professionals. With advanced technologies, innovative treatment protocols and compassionate care, we are dedicated to helping improve the quality of life for all of our patients.

Whether patients come from an intensive care or general medical setting, Triumph is capable of dealing with a wide spectrum of acute care needs, including multiple system involvement such as heart, pulmonary, renal, neurologic and infectious diseases. With our ACLS Certified nursing and respiratory staff, Triumph provides critical care intervention when conditions warrant. Our physicians consult with specialists to ensure patients with specific problems achieve the best possible outcomes.

### Wound Management Program

At Triumph, we believe the most comprehensive approach to wound management involves an interdisciplinary team of professionals collaborating to evaluate and develop a plan of care focused on promotion, maintenance, rehabilitation and restoration of patient health.

Triumph Wound Management provides the community with a full-service wound management program. We serve as a referral center for community physicians, providing complete wound management assessments.

## Chronic Wounds

Our patients require high acuity wound management for draining wounds and fistulae and complex management of the acute or unstable chronic wounds. Chronic wounds are classified into the following categories:

- ✦ Pressure Ulcers
- ✦ Ischemic Ulcers
- ✦ Post-Surgical or Post-Trauma
- ✦ Diabetic/Neuropathic Ulcers
- ✦ Venous Stasis Ulcers
- ✦ Peripheral Vascular Disease

## Services Available

Treatment modalities may include:

- ✦ Electrical Stimulation
- ✦ Ultrasound
- ✦ Hyperbaric Oxygen Therapy (Select Locations)
- ✦ Wound V.A.C.
- ✦ Sharp Debridement
- ✦ Whirlpool
- ✦ OASIS and APLIGRAF Application
- ✦ Infrared Therapy

## TEAM Approach

**Expect the BEST from a team dedicated to your health**

Discover individualized care from a multidisciplinary team. As a Triumph patient, your team of physicians, nurses, pharmacists, dietitians, case managers and entire staff of allied health professionals such as respiratory, speech, physical and occupational therapists collaborates on your specialized treatment plan, and works with you and your family to help reach your goals. Focused on your achievement, your care team meets regularly to monitor your response to treatment and progress.
